Summary

An Aspiring Web and Software Developer proficient in building modern web using frontend and backend. Passionate about designing user-friendly interfaces, integrating APIs, and delivering scalable solutions for real-time products.

Education

KLN College of Engineering, Madurai, Tamil Nadu

2023 – 2027

Bachelor of Engineering in Computer Science and Engineering

CGPA: 8.28/10

Experience

Intern – KLN Research Park

2024 – 2025

- Developed a web-based smart camera vulnerability scanner using Flask (Python) and HTML, CSS, JavaScript (Tailwind CSS).
- Integrated Nmap for real-time network scanning to detect open ports, exposed services, and potential security weaknesses in IoT devices.
- Implemented automated vulnerability analysis and displayed live scan results with security recommendations through a user-friendly interface

Generative AI – RAAM Academy (Bootcamp)

Aug 2025

- Gained hands-on experience with Gemini 1.5 and 2.0 Flash, Python (Gradio, PyMuPDF, ElevenLabs), and n8n for no-code automation.
- Developed and presented "AI Companion for Seniors" project showcasing chatbot, voice, PDF, and image-based AI features.

Projects

Natural Language Processing using Python

- Developed a solution for college management to automate the admission process using NLP

Smart Camera Vulnerability Scanner

- Built a Smart Camera Vulnerability Scanner that identifies potential security flaws in connected cameras through real-time network scanning.

Personal Portfolio Website

- created using HTML, CSS, and smooth animations to showcase my work

Certifications

- generative AI Project Bootcamp
- Java Programming
- The Modern JavaScript for Beginners - Udemy

Skills

Programming: Python, C, Java, SQL, JavaScript, React.js

Frameworks/Technologies: Flask, HTML, CSS

Databases: MySQL

Tools: VS Code

Extra-Curricular Activities

- Smart India Hackathon 2025 – Participated and presented innovative solutions on Gamified Learning Platform for Rural Education.
- Event Organizer- Organized and coordinated college events, managing planning and execution. Collaborated with teams to ensure smooth operations and successful outcomes.
