Summary

An aspiring Web and Software Developer proficient in building modern web applications using frontend and backend technologies. Passionate about designing user-friendly interfaces, integrating APIs, and delivering scalable solutions for real-time products.

Education

K.L.N. College of Engineering, Sivagangai 2023 – 2027
Bachelor of Engineering in Computer Science and Engineering (up to 5th Semester) CGPA: 8.28/10

Skills

Programming: Python, C, Java, SQL, JavaScript, React.js
Frameworks/Technologies: Flask, HTML, CSS, REST API
Databases: MySQL, PostgreSQL
Tools: VS Code, Google Colab, NetBeans

Experience

Intern – K.L.N. Innovative Research Park 2024 – 2025

- Developed a web-based smart camera vulnerability scanner using Flask (Python) and HTML, CSS, JavaScript (Tailwind CSS).
- Integrated Nmap for real-time network scanning to detect open ports, exposed services, and potential security weaknesses in IoT devices.
- Implemented automated vulnerability analysis and displayed live scan results with security recommendations through a user-friendly interface.

Intern – FrontierWox Tech Private Limited Ongoing

- Developing a web application that generates structured reports instantly based on user input.
- Designing a two-panel interface where users enter details and view the generated report dynamically

Projects

Natural Language Processing using Python

- Developed a solution for college management to automate the admission process using NLP techniques.

Smart Camera Vulnerability Scanner

- Built a Smart Camera Vulnerability Scanner that identifies potential security flaws in connected cameras through real-time network scanning.

Personal Portfolio Website

- Created using HTML, CSS, and smooth animations to showcase projects and skills.

Certifications

- Generative AI Project Bootcamp
- Java Programming
- The Modern JavaScript for Beginners – Udemy

Additional Information

- Smart India Hackathon 2025 – Participated and presented innovative solutions on Gamified Learning Platform for Rural Education.
- Organizer – Organized and coordinated college events including Symposium, TechFest, and Engineers' Day, managing planning and execution. Collaborated with teams to ensure smooth operations and successful outcomes.

Languages

- English, Tamil, Sourashtra
